Education

Fullstack Web development

6/2023 - 6/2024

Aptech Computer Education

With over 1 year of studying and practicing many small and medium-sized projects at Aptech Academy. I specialize in both FrontEnd and BackEnd web development.

Frontend Development: Proficient in HTML, CSS, and JavaScript, I create responsive UI/UX. Using frameworks and libraries such as Bootstrap, ReactJS, TypeScript, and TailwindCSS. I also have a deep knowledge of OOP and MVC principles from Java Spring and Laravel.

Backend Skills: PHP and Lavarel framework, Java and Spring Boot framework. Proficient in database with MySQL and SQLServer. Ability to work with RESTful API.

Version Control: I actively use GitHub for version control, collaborating with other developers

Mindset: Having logical thinking with a lot of algorithms.

Technology

Front-end: HTML, CSS, Javascript (ES6, Promise, Asynchronism, Callback...), JQuery, Bootstrap.

Framework: ReactJs (state, hooks...), VueJs, Typescript.

Back-end: PHP, MySQL, SQLServer, Java, Java core , Spring Framework , RESTful API with Laravel and Spring Boot.

Skills

- Ability to read English document to update new technology.
- Passion for learning everthing. Good knowledge about OOP

Objectives

My goal is not only to perform well in the role of a Fresher but also to quickly advance to the position of Junior Developer in our company.
